Dedication

A new spirit of enthusiasm and personal interest has enlivened the St. Vincent's of 1967-'68. This spirit is created by a person new to the school. She takes a special interest in everything that happens. At lunch she can be seen eating with the students, and after school working as debate sponsor. She also takes pride in sports, including marching. Being principal doesn't leave much time but she's always willing to make it for a student when needed.

So, to Sister Patricia we gladly dedicate the 1968 Vincentian.

Faculty

The faculty is given the task of teaching the students how to appreciate the smaller moments of life. They are willing to share their knowledge and experiences with us so as to make our lives more successful. These next few pages introduce the people who make high school years meaningful.

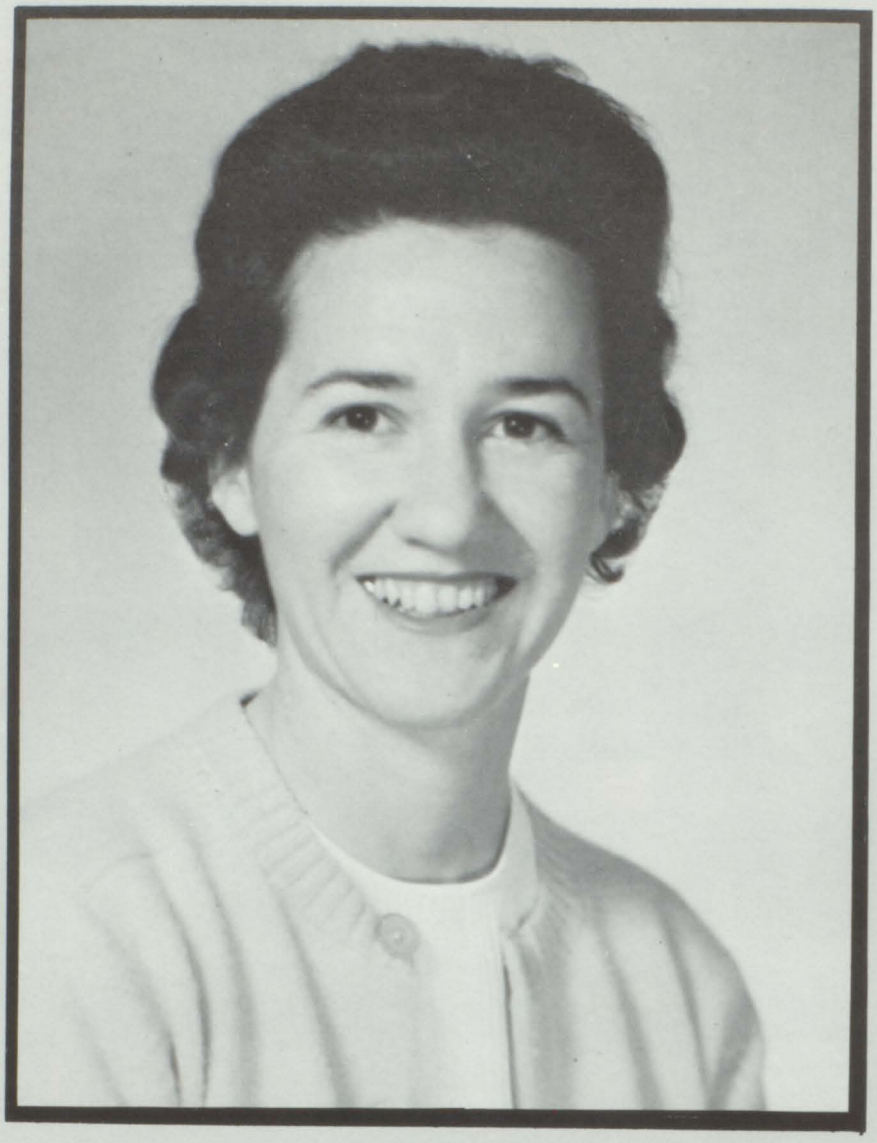

The faculty is seen ... lending a helpful hand ... relaxing after hours of teaching ... chatting outside of class ... instructing through various activities ... working together in order to make the school day profitable ... making sure students have ample time for recreation ... encouraging the lunch program ... being there when they are needed.

In Memory
of
MRS. SOPHIA J. GAUTHIER

So live, that when thy summons comes to join
The innumerable caravan which moves
To that mysterious realm, where each shall take
His chamber in the silent halls of death,
Thou go not, like the quarry slave at night,
Scourged to his dungeon, but, sustained and soothed
By an unfaltering trust, approach thy grave
Like one who wraps the drapery of his couch
About him, and lies down to pleasant dreams.

Dear Seniors of Saint Vincent's Academy,

To paraphrase Plato, what is to be honored in a country tomorrow should be cultivated there today. The greatest achievement was first a dream! The oak sleeps in the tiny acorn. The bird waits for its freedom in the tiny egg. The highest vision of the soul stirs in a fluttering wing. A young girl's dreams are the seedlings of a reality—the woman of tomorrow.

St. Vincent's Academy is not so much concerned with a "Great Society" as it is with a "Decent Society". Since 1869, it has been engrossed in creating the "Lovely Lady" and the "Valiant Woman". Today, more than ever, our country desperately needs women who are informed and women who care, who think strongly, attempt fearlessly, and who love God and neighbor deeply and sincerely. Therefore, moral and intellectual excellence hold paramount place in the development program at this school.

Today, there is no time for a minimum life in an era of maximum demand. A lady has but to right herself to find the universe right. As she alters her thoughts, words and deeds, people and God will alter their attitude towards her.

Seneca summarized all this in these words; "God divided man into men that they might help each other." Thus, love and harmony are the role of a lady. Thus, may you spread peace wherever you go.

Yours in devoted love and prayers,

Seniors . . .

For three years the Seniors have attended Proms, Homecomings, and Presentations, but this year, these events seem to have a more special meaning. And, in the years to come, although the Seniors will recognize them as just "smaller moments" of their lives, they may yet remain the most meaningful.

Underclassmen . . .

For the underclassmen these are the years during which they build up a store of memories to look back upon when they are older. They bring smiles, maybe win a good laugh and are followed by a chain of other memories, good and bad. Such is the destiny of an underclassman.

UNDERCLASSMEN

... special smiles ... the friends who have so much to tell you ... Freshies becoming acquainted with the teachers ... off campus beauties ... girls await refreshments ... eyes thinking instead of seeing ... The Singing Nuns ... The always spirited Freshman ... The Lonely teenager ... girls anxiously waiting for the bell to ring ... The excitement of biology ... A punch full of fun ... The Spirit workers ...

A Hectic Time for Freshmen

"... Gosh, that's what he told me, too ..."

Seems like there is always some people who can't make it from gym to their next stop without a rest.

No matter how they look at it there is no better way to end the week, than with the Rocking Red Eyes.

EDUCATION PAYS

Non–college bound young men and women face three problems:

1. Will there be sufficient jobs?
2. Will your training and high school education be adequate for increasingly complex and high level jobs offered by our economy?
3. Will you be able to overcome your disadvantages and handicaps?

Students who have not been thinking about college at all may find their solution in one–two–three year programs of technical training. At least three trained technicians will be needed for every scientist and engineer required.

Our officers and directors will gladly help you and your parents plan a better future.

Yearbook Class

Dear Students,

Throughout this yearbook it has been our intention to capture many of the small but meaningful moments which have comprised one year of our high school life. We hope that our efforts we have given you a thorough picture of a truly meaningful year. Actually two people cannot give themselves credit for something to which others have contributed so much. Without these people and their time, patience, and talents, a yearbook such as this could never have been completed.

For these reasons we sincerely wish to thank Mr. Shorter for the many hours he has given us, Sr. Rita for the patience and kindness which she continually shows to all those who have taken a special interest in the Yearbook Staff and have shown their confidence in the editors, and to those patrons who generously gave in order that we might produce this yearbook. Most of all we wish to thank the '68 VINCENTIAN STAFF . . .

Sincerely,
Jeanne Karam
Pam Alberts
